

Web Designer

ESLlibrary.com is a growing, innovative ed-tech company focused on language learning content and courseware. We're passionate about providing language teachers with the highest-quality lessons in the industry, in a medium that makes it easy to connect with students. Located in the historic Silpit Building in the Exchange District of Winnipeg, we are a team of 16 people expected to grow to 30 by year-end.

Why would you enjoy working for us?

Members of our team get to be creative, feel like their work is valued, learn, and contribute to something that has a positive impact on people all over the world. We work hard to maintain an environment where this is possible, and we love coming to work every day because of it.

Who are we hiring?

We're looking for a web designer to help us continue to expand upon the features of our product and improve the design, UI, and UX of existing parts.

What skills do you need to work here?

We're looking for someone who...

- is experienced at using user-focused design to make complex tasks feel simple and delightful.
- is adept at researching, wireframing, prototyping, and using design software.
- is knowledgeable about typography, design principles, and UI design patterns.
- is capable of maintaining brand standards and continuing the development of a design system that reflects them.
- is able to write semantic and accessible HTML, as well as lightweight, flexible, and maintainable CSS.
- is comfortable with rapid iteration using agile processes and version control (such as Git).
- has a keen attention to detail.
- is an excellent communicator who enjoys collaborating with a team to dream up, build, and deliver the best experiences.
- has the ability to take ownership over project timelines and deliverables.
- enjoys a good challenge and always strives to learn, grow, and improve.
- has post-secondary education in design (or equivalent work experience).
- has at least two years of experience working in web design.

Who would you be working with?

Our web designers work closely with our product managers, web developers, content team, and creative director.

What benefits would you get?

You would start with four weeks of paid vacation in addition to all statutory holidays. Our benefits package includes dental, health, massage therapy and acupuncture, travel insurance, and eye-care coverage. We also offer commuter benefits to help pay for

parking or public transit, wellness subsidies if you like to stay active, and educational reimbursement for language classes.

Job Type: Full-time
